Counselors will come in dressed and acting like dinosaur wranglers. We will bring them into a "safe" place (safe from dinosaurs) and explain what is going on. (description to come).

Challenge 1: 7:25-7:45

Children will work together with given survival kit to create a protection/escape plan if they were to be chased by dinosaurs. Counselor facilitate and also point out potential problems/weaknesses in plans.

Challenge 2: 7:45-8

Food chain (tag game)

Carnivore, Herbivore, Plant.

Rules: carnivores may ONLY walk, Herbivores may link arms (2 people max and for five seconds) to be SAFE from carnivores, plants may lie on the ground (for 5 seconds) to NOT get eaten. Good luck. Boundaries are the whole a-side migrash.

Challenge 3: 8-8:20

Chanichim will create/invent a dinosaur. They get to choose from possible characteristics and then build from there. First with a detailed drawing, description and facts. Then present their creations to edah.

Sikkum: 8:20-8:30

Chanichim will finish presenting their creations if that runs late. Then we will speak about how lucky the human race is that we still exist.
