

Peulat Erev 8/3/11 Paper Mache Friend Masks Part 2

Goal- To help kids realize that a great way to make a friend is to find a shared passion/interest

Activity- Decorate the paper mache masks they made before with the shared passion. i.e- a soccer ball face, or musical notes on the cheeks of the mask

Materials-

construction paper

glue

tissue paper

markers/paint

any other arts and crafts materials

garbage bags

Where- moadon

Directions:

Counselors need to: Go to 32 and bring all of the balloons to the moadon

Set up 25 stations with trash bags on the floor of the moadon for partners to sit in

Put each balloon at a trashbag station

Kids need to:

Come into moadon and find which station their balloon. Sit at the station with their partner.

Counselors help the kids split their balloon into halves, each kid gets half of the balloon for the mask. Counselors come around and give markers/ construction paper/ tissue paper to the kids.

They then glue on the paper to the mask. They can draw a face and decorate it however they want to make their "friend." Stress that they must incorporate their common passion somewhere on the face of the mask.
