

Capture the Counselor: Technology Edition

Goal: To have fun getting to know the counselor as well as the camp. Also a chance for new campers to mix and meet the old campers in their bunk.

How to play:

One counselor from their own bunk will run around with their campers. The other counselor will be assigned to hide for a different bunk. The counselor hiding will have a phone as well as the counselor leading their bunk around. The hidden counselor will be on the phone with the counselor/bunk giving them tasks/riddles to complete. The hidden counselor will tell the bunk to go to different locations after each task is complete and the bunk will be getting closer and closer to the hidden counselor's location. (Don't worry, the order of locations is logical and not annoying. It's basically a circle around B-side). After each task is finished, the bunk may have to call the hidden counselor or send a picture message to confirm they have done it. Each bunk will go to 7 locations (including the one where they started). Spend 5-10 minutes at each location.

In the end, the bunks will find their hidden counselor and bring them back to the moadon. Once all the bunks are back in the moadon, 2 representatives from each bunk will introduce the 2 counselors and give 3 fun facts about the counselor they found as well as the counselor leading them.

| Location | Task |
|--|---|
| Moadon Bogrim | Teach and sing the Edah song. Then call hidden counselor back and sing it together. |
