- Tzrif 33 - Rockstar
- Tzrif 35 - Superhero

They will go back to Tzrif (Approximately 15 minutes) and dress their madrichim (one or both if there is enough time) according their theme. A good way to make sure you don't have to wear underwear on your head or shelves get raided is to lay out clothing that your chanchim will choose from, so your personal area doesn't look like the end to a major war.

Not only do chanichim create an outfit for madrichim, but they must also create a character that goes along with that theme. please choose two representatives from each tzrif to announce the created character on the runway.

i.e. Theme - hollywood = suzy the rising actress who not only lives the glamorous life but also wears it. she enjoys riding in limos and eating only the most expensive food while hanging out with all her celebrity friends.

A song for the runway must also be chosen - that can either be the chanchim or the madrichim's decision

When everyone is dressed and ready, head back to the BAA. Sit by Tzrifim close to the stage (the catwalk). Saul and Koby will begin the fashion show - call up each Tzrif (madrich and chanichim). Make it flashy and fun (if your engaged their engaged). Madrichim will come to the stage, music will play as they strut their stuff and chanichim announce the character they have created.

Supplies: speakers, microphone, music, madrichim clothing, the inner diva to be released.

Sikkum: release the inner creativity of chanichim as well as build tzrif teamwork!!
