Anne Frank lived during the holocaust. She was a teenager during this time, and lived with her older sister and parents. The Franks were forced into hiding in an attic above an office.

Countless times, Anne Frank faced death, but she kept a diary of the events she endured. Anne's life ended at a concentration camp. Her father lived until liberation and published her diary in many languages to keep her memory alive.

Yoni Netanyahu was the brother of former Israeli Prime Minister, Benjamin Netanyahu. He was also a soldier in the Israeli army in the 1980's. While Yoni was in the army, a plane flying through the Middle East was hijacked. Most of the passengers were Jewish. The non-Jews were set free, but the Jewish passengers were held hostage. The Israeli army planned an elaborate rescue mission, with Yoni Netanyahu at the head of it. During the rescue mission, the soldiers rescued every Jewish hostage, while being shot at by the terrorists. Every single hostage and soldier survived. Everyone except Yoni Netanyahu, who gave his life to save other Jews he had never met.
