

SOL 2009

Peulat Shabbat

August 8, 2009

Solelim

Hollywood Squares

There will be nine special guest each representing a square. Three will be standing on a picnic table, three will be sitting on the table of the picnic table, and three will be sitting on a bench in front of the picnic table. Each person will be holding a piece of construction paper, one with a X on it and one with an O on it. The campers will be sitting on the grass outside bunk 26 in two halves: top bunks (X) and bottom bunks (O). The team leaders, Evan and Judy for top and Noah G. and Mira for bottom, will help the team pick a spokesperson and help the team make a decision between true and false. The team leaders will try to minimize fighting. The other counselors should intersperse between teams and help out. The top bunks will go first. They have to choose a square to put an X. Then Ben, Idan, and Hannah will ask that person a question. That person can either answer the correct answer that will be given to them, or a made up answer, so be creative!! The team that chose that person has to determine if the answer was correct or incorrect. If the team is correct, that person holds up an X. If they were wrong the person doesn't hold up anything and now it is O's turn. O team now picks a person and the whole process repeats itself. We will play three games if time permits.

Questions for Hollywood Squares!!
