

Israeli Neighborhood Project

Each tzrif will conduct a 4-5 minute interview with their Israeli staff members. These interviews should be about life in the staff member's neighborhood (i.e. Baca or Talpiot not Jerusalem). The interviews will be filmed on the flips, and posted online throughout the year. During the interview, chanichim should seek to ask a few of their questions in Ivrit, however answers should be given in English. Daber Tzrifim should ask all of their questions in Ivrit. Interviews should be completed by the end of the third week.

Sample Questions:

- How would you describe the population in your neighborhood?
- What are some unique things about your neighborhood?
- Where in your neighborhood did you play as a child?
- What store would you walk to in order to get a snack?
- Are there any special events that take place in your neighborhood?
