Summary:

The staff has been kidnapped by Despicable Daniel and Evil Eva. The counselors must be rescued by their respective bunks, in order to have their staff for the summer (they **MUST** do this). The entire edah will travel to each location to find their staff, and at the location the respective bunk must step forward to rescue their staff.

Locations:

1. Bunk 56 - Sam Doernberg
 - a. **Location** – Packout Fridge (Red structure for the task)
 - b. **Clue** – “Brrrr its cold in here. There must be some packout in the atmosphere”
 - c. **Task** – Each camper will receive a bowl filled with flour and one staple inside. They must find the every staple. They will then be told to proceed to the freezer (around the corner across from the dumpsters by the chadar) to rescue Sam.
 - d. **Materials Required** – Styrofoam bowls, sand, staples
 - e. **Notes** – Once the last camper is looking for the last staple, Daniel will call Sam so he knows to enter the freezer from inside the kitchen. Once they have finished, make sure to tell the bunk (and the rest of the edah) to go around to the freezer, and not the actual packout fridge. Must make sure to check with the kitchen that we may use the freezer that it is unlocked, and Sam can enter from inside the kitchen.
2. Bunk 54 – Ze’ev Lailari, Ben Levkowitz
 - a. **Location** – Trees by the Gazebo
 - b. **Clue** – “Rescue your counselor like a cat in a tree. Check by the moadon, that’s where he’ll be.”
 - c. **Task** – There will be tape available for the campers to use. Using the sticks in the surrounding area, they must create a device to pass up a mini parachute to Ze’ev.

- d. **Materials Required** – tape, mini parachute (ask Karen)
 - e. **Notes** - Ze'ev → let us know whether or not you have enough time to climb, and also there's no need to climb too high because they definitely are not engineers and I don't think that they can create a device that will really be able to reach too high
3. Bunk 58 – David Roberts, Aryeh Kalender, and Ziv Artz
- a. **Location** – Trees by Gagarena outside Machon girls bunks
 - b. **Clue** – “A game for babies, its more than okay. Bounce a ball three times, and then you'll play.”
 - c. **Task** – Aryeh will have be tied to a tree using rope and tape (done by David and Ziv: please don't make it too difficult for them to get it out.) The campers will need to be rescued him using no tools.
 - d. **Materials Required** – rope, tape, scissors (just in case he's really stuck and needs to be cut out)
 - e. **Notes** – Aryeh: wear a long-sleeved shirt so the tape doesn't rip off your skin. It hurts. Also if scissors are required, use discretion whether or not campers should use them to rescue him or Ziv and David.
4. Bunk 50 – Rachelle Kredenster, Briana Felsen, and Karen Brier
- a. **Location** – B-Side Agam
 - b. **Clue** – “Waves and fun, its very hot. You will find a lot of these in Eilat.”
 - c. **Task** – Karen will be buried in the sand. The campers will need to completely dig her out, without tools. There is a possibility that she will be covered in towels and they will have to find her, but possibly not since she doesn't want her face stepped on.
 - d. **Materials Required** - shovel (if possible) and maybe towels
 - e. **Notes** – Rachelle, Briana, and Karen will leave immediately in order to start digging. The location will be farther down the beach so that she isn't seen.
5. Bunk 48 – Sarah Levine and Arielle Davidoff
- a. **Location** – Amitzim Basement
 - b. **Clue** – “Home of the free and basement of the brave”
 - c. **Task** – human knot (its supposed to be like their unraveling the key to rescue their counselors)
 - d. **Materials Required** – a flashlight if you want when you get rescued to look cool
 - e. **Notes** – nothing ☺
6. Bunk 49 – Naomi Silverman and Noa Arbor
- a. **Location** – Beit Am Gadol big red doors
 - b. **Clue** – TBD
 - c. **Task** – Naomi will be tied with a rope to the door of the stage doors of the Beit Am Gadol, with an apple in her mouth (so she looks like shes being tortured). The campers will need to pass through a jump rope being spun by two counselors.
 - d. **Materials Required** – jump rope, apple
