### Zombie Missions Explanations - Rosh Sandcastles: Mimi and Alex

All these activities are being run at the same zman.

#### **זומבי Tzad Gimel Sandcastle Tachrayut :**

The premise is this: In a world where zombies have taken over Machanot Ramah, and Palmer is at capacity, the current head of camp needs to build a Tzad Gimel, large enough to accommodate every chanich and chanicha, and strong enough to keep out the zombie hordes. You architects are tasked with designing such a momentous feat....C Side in the Sand!

#### **Zombies and Humans - Tzevet: Allison and Mira**

The premise is this: In a world where zombies and humans are at odds, the zombies must try to convert all the bnei adam, humans, bnei adam....into zombim, zombies, zombim. This is really just sharks and minnows, except that all zombies must walk like zombies with hands extended in front of them, etc. One chanich/a is the original zombie (OZ), and stands in between the humans and the safe zone. The humans have to try to run past the OZ to get to the safe zone. If the OZ tags a human, that human is now a zombie, and is part of the OZ's horde.

#### **Zombie Mafia - Tzevet: Ben and Ezra**

The premise is this: Zombies have developed intelligence, and are infecting townspeople.

Roles:

Police: Zombie Hunters

Mafia: OZ

Doctor: Vaccintor

Every time the OZ successfully kills someone, sing "Ozi (OZ) vezimrat yah". Also, whenever a zombie is killed, they have to walk around that night, making zombie noises (setting the scene, not actually doing anything except having a lot of keif)
