Treasure ~~Scavenger~~ Hunt

groups searching for the stolen plans to the Death Star - follow clues all around camp. At each station get 2 clues - 1 tells where to go next, + the other, when figured out, gives a word which can be plugged into a chart (see attached) which, when completed, tells where to go to find the Death Star Plans

Jedi Training

Round Robin:

- ① Trust Walk - use the force
- ② Making light sabers w/ markers + construction paper
- ③ Discussion of T'shuvah - did Darth Vader repent?
- ④ Use the force to read minds -
Divide into groups of 2
pt. I - 2 people make up a short story, then asked questions about the story, which they must answer w/out looking at one another - try to get all the same answers
pt. II - group leader holds up cards w/ diff geometric shapes on them - kids try to guess which shape is on the card being held up

Rebels vs Empire: massive game of tag. Played in several rounds - each time, 1 team is the Empire, who try to tag the 2 teams which are rebels, while 1 team rests. All day, the teams got points, depending on how well they did. The more points a team has, the more time they had as the Empire to catch the rebels. The 1 team of rebels tagged the least wins. After each round, the teams rotate, so every team rests once, is the empire once, 

and are rebels twice. Each round, there is a recorder. Whenever a rebel is "caught" (tagged) by an Empire member, the recorder (a Counselor) notes down what team the rebel was on. Then the rebel is released back into play. At the end, the rebel team w/ the least number of caught members wins.
