

Yom Yum

FOOD SCIENCE

11:35-12:20- In the Valley

Everyone is going to gather in the Moadon and then the Va'ad will split the edah up into their food science groups. Then the campers will go to their beginning station which will be on the migrash.

Project one: Mentos and Diet coke → *- Kachnat - modify - do demo for them? shake up coke*
Each camper will be given a cup of diet coke and a mentos and we are going to watch the reaction once we put the mentos into the coke. And obviously this wont take very long so after everyone goes you can just play coke and pepsi or 7 up.

Supplies: soda and mentos for each camper

Project two: Blind taste test →

We got a lot of random spices and things from the chadar and the chanichim will be having a random taste test of the things we put in from of them. You will need to blindfold them and they will guess what they just tasted. Make it a competition to see who can guess the most correctly. It will be out of six. *Cinnamon, cumin, Cocoa mix*

Supplies: taste objects, blind fold

Project three: Find the Hershey kiss →

Each camper will be given a bowl with a Hershey kiss in the middle and there will be whipped cream on top so the kiss is not visible. It's a competition for everyone in the group, they will have to retrieve and eat the kiss first without using their hands.

Supplies: Bowls, Whipped cream, Hershey kisses.

Project four → **Invisible ink**

1. squeeze lemon juice into a bowl and put in a few drops of water.
2. Mix the water and the lemon juice together
3. Dip the cotton swab into the juice and write on the white paper.
4. Wait for the juice to dry and then take a light and hold it up to the juice and see the message that was written or the picture that was drawn.

Supplies: Lemons, Bowls, Que-tips, paper, water

12:20-1:00

The campers will stay in their groups. Each group will be given a sheet cake and things to decorate them with. On the cake they will have to portray Solomon and Ariella dancing to the edah song.

1:00 -1:30 lunch
