

Bill and Ted's Excellent Adventure
Peulat Erev 8/14/12

Stage I: Introduction

We begin in the moadon and explain the peulat erev: travel through history! We have four stations representing for different time periods: Prehistory, Ancient China, the Old West, the and Hip Cats of the 50's. Split into four groups, with one staff permanently at each station and another traveling with each group.

Group 1
Group 2
Group 3
Group 4

Stage II: Stations (10 minutes each)

Prehistory: Cave drawings

Crumple up paper bags and draw "prehistoric symbols" on them with charcoal. We will supply some symbols as a reference. Done at picnic tables outside of moadon

Ancient China: Chinese folk dancing

** will teach Chinese ribbon dancing inside of the moadon.

Old West: Cowboy games

We will set up some garbage cans to "lasso" with jump ropes. We will have "horse races" with brooms.

The 50's: Beatnik Slam Poetry

Whoever's running the station should wear all black and a beret. Campers should try to create their own short poems, but we will have Jack Kerouac haikus ready for those who need them. There will be two bongos, and campers should snap at the end of poems. This will be done on the bleachers.

Stage III: Conclusion: Space- The Final Frontier

After the last station, send everyone into the moadon. Our final stop on our excellent adventure is... space! Turn the lights off, and have a space video projected onto the screen. Kids lie down on the floor and watch. Then announcements, rad hayom, and laila tov!
