Peulat Erev – July 31

Theme of peulah: **Reut (friendship)**

Location: Beit Am Gadol!

Goals: Meet and become more comfortable with people in other tzrifim, work together as a kevutzah, (#HaveKef)

Materials:
- Staplers
- Pens
- Construction paper
- Loud speakers

Activity:

There are 4 groups of chanichim (half-staff, 2 counselors in each group).

Beit am Gadol is a <u>Farm</u> and each group is a different animal.

Madrichim are the farmers/shepherds and chanichim are the animals.

1) Start with the Edah song (Sheets!) (4 Minutes) sing through it twice

2) Break into 4 groups and have each group create a skit that involves a farmer (the madrich in the group) and their type of animal.

- Cow

- Chicken

- Goat

- Horse

3) Friendship chain: <u>*In the 4 groups*</u>*:* Each chanich is given a piece of construction paper. On their paper, they write what they think is the most important quality in a friend. When every chanich is done writing, madrichim will help them staple the papers together to form a chain/line. (We will then hang them up in the moadon in a chain.) (5-7 Minutes)

4) Freeze dance: <u>*All together*</u>*:* play music and chanichim must <u>dance as their animal</u> and make the <u>noise of that animal</u>. When the music is paused, everyone must freeze until the music is played again. Madrichim will dance with them and make sure they are following rules. – Competition of which animal is dancing the best. (7 minutes)

5) Shepherds and Animals (Sharks and Minnows FARM EDITION) _All together_

The <u>madrichim</u> are in the center (half court) of the BAG, they are <u>shepherds</u>. All the chanichim are on one side all standing against the wall. When Ori says the phrase in Hebrew, all chanichim run in a straight line from one side of the BAG to the other side (trying not to get tagged by Madrichim). The madrichim/shepherds in the middle must tag as many chanichim as they can. If a chanich is tagged, they become a <u>shepherd</u> and stand in the middle with the madrichim. _(Play a few rounds depending on timing of Peulat erev)_
